

# NETWORK OPERATING SYSTEMS (NOS)

---

## **NOS 110 Operating Systems Concepts 5/3**

This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

Prerequisite: None

Corequisite: None

## **NOS 120 Linux/UNIX Single User 4/3**

This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

Prerequisite: Take NOS 110;

Corequisite: None

## **NOS 130 Windows Single User 4/3**

This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

Prerequisite: Take NOS 110;

Corequisite: None

## **NOS 220 Linux/Unix Administration I 4/3**

This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

Prerequisite: Take NOS 120;

Corequisite: None

## **NOS 230 Windows Administration I 4/3**

This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

Prerequisite: Take NOS 110;

Corequisite: None

## **NOS 231 Windows Administration II 4/3**

This course covers the management of a Windows Server operating system. Emphasis is placed on the deployment of print services, network services, Active Directory, group policies and access controls. Upon completion, students should be able to deploy and manage services on a Windows Server operating system.

Prerequisite: Take NOS 230;

Corequisite: None

## **NOS 232 Windows Administration III 4/3**

This course covers management and configuration of a highly available Windows Server operating system. Emphasis is placed on the implementation of business continuity and disaster recovery procedures for network services and access controls. Upon completion, students should be able to manage and configure a highly available Windows Server operating system.

Prerequisite: Take NOS 230; Take NOS 231;

Corequisite: None
