

# HUMAN SERVICES TECHNOLOGY

**Contact(s):** Kara Finch (<https://www.stanly.edu/college-information/directory?id=1399>)

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies that provide social, community, and educational services. Along with core courses, students take courses that prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Graduates choosing to continue their education may select from a variety of transfer programs at senior public and private institutions.

## Learning Outcomes

Upon completion of this program, students will be able to:

- Develop proper documentation skills.
- Apply counseling skills to volunteer experiences with clients.
- Describe various treatment modalities and their appropriate applications.
- Develop therapeutic communication techniques such as empathy and active listening.
