## ACCOUNTING AND FINANCE

**Contact(s):** Dalton Reeder

The Accounting and Finance curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the "language of business," accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to coursework in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

### Learning Outcomes

Upon completion of this program, students will be able to:

- Demonstrate the ability to prepare a financial statement.
- Analyze and then apply proper tax treatments.
- Analyze, summarize, and prepare managerial accounting reports.
- Use computerized accounting tools to prepare accounting reports.
- Effectively communicate in writing to accounting customers and co-workers.

### Bookkeeper Certification

Earn your American Institute of Professional Bookkeepers (AIPB) Bookkeeping Certification through completion of the ACC 220 course in the Accounting and Finance Degree program. Contact Dalton Reeder at (704) 991-0335 or [areeder8468@stanly.edu](mailto:areeder8468@stanly.edu) for complete details.
