Check out our [video!](#)

The Annie Ruth Kelley Associate Degree Nursing curriculum provides individuals with the knowledge and skills necessary to provide nursing care to clients and groups of clients throughout the life span in a variety of settings.

Courses will include content related to the nurse's role as a provider of nursing care, as a manager of care, as a member of the discipline of nursing, and as a member of the interdisciplinary team.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN), which is required for practice as a Registered Nurse. Employment opportunities include hospitals, long-term care facilities, clinics, physicians' offices, industry, and community agencies.

Learning Outcomes

Upon completion of this program, students will be able to:

- Establish safe, professional nursing behaviors including accountability for entry-level nursing competence as demonstrated by a passing score* on the NCLEX-RN licensure exam as delineated by the rules and regulations of the North Carolina Board of Nursing.

* =NCLEX-RN does not award numerical scores. Reports only include a pass or fail.
- Communicate with individuals, significant support person(s), and members of the interdisciplinary healthcare team as demonstrated by a grade of "pass" on the summative clinical evaluation tool described under the nursing domain.
- Formulate holistic assessments to identify the needs of the individual in order to provide culturally competent client-centered care as demonstrated by a grade of "satisfactory" on the complex patient comprehensive assessment on the clinical prep tool.
- Utilize healthcare informatics to apply research to practice for evidence-based practice, clinical judgments, and management decisions as demonstrated by a score of "satisfactory" on the evidence-based practice project completed in the capstone course.
- Create nursing plans of care for clients across the life-span as demonstrated by cognitive proficiency on the nursing caremap in the clinical setting.
- Incorporate teaching and learning principles into nursing practice as demonstrated by completing a capstone teaching project with a passing score of 80% or above.
- Manage healthcare for clients by utilizing cost-effective nursing strategies, quality improvement processes, and legal/ethical awareness to promote quality outcomes as demonstrated by a "passing" graded clinical performance to prove cognitive and behavioral proficiency of the healthcare domain as described on the clinical summary.
