The Annie Ruth Kelley Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Coursework includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global healthcare system and may include positions within acute, chronic, extended, industrial, and community healthcare facilities.

Learning Outcomes

Upon completion of this program, students will be able to:

- Establish safe, professional nursing behaviors including accountability for entry-level nursing competence as demonstrated by a passing score* on the NCLEX-RN licensure exam as delineated by the rules and regulations of the North Carolina Board of Nursing.

*=NCLEX-RN does not award

- and numerical scores. Reports only include a pass or fail.
- Communicate with individuals, significant support person(s), and members of the interdisciplinary healthcare team as demonstrated by a grade of “pass” on the summative clinical evaluation tool described under the nursing domain.
- Formulate holistic assessments to identify the needs of the individual in order to provide culturally competent client-centered care as demonstrated by a grade of “satisfactory” on the complex patient comprehensive assessment on the clinical prep tool.
- Utilize healthcare informatics to apply research to practice for evidence-based practice, clinical judgments, and management decisions as demonstrated by a score of “satisfactory” on the evidence-based practice project completed in the capstone course.
- Create nursing plans of care for clients across the life-span as demonstrated by cognitive proficiency on the nursing caremap in the clinical setting.
- Incorporate teaching and learning principles into nursing practice as demonstrated by completing a capstone teaching project with a passing score of 80% or above.
- Manage healthcare for clients by utilizing cost-effective nursing strategies, quality improvement processes, and legal/ethical awareness to promote quality outcomes as demonstrated by a “passing” graded clinical performance to prove cognitive and behavioral proficiency of the healthcare domain as described on the clinical summary.
